

STUDENT INSTRUCTION

Student Instructional Goals

The District will provide equal opportunity for students to receive an education, which will enable them to fulfill their role in society, commensurate with individual ability, in compliance with legal requirements, and reflecting the desires of the people.

Instructional programs, methods, and resources should meet the needs of each student, regardless of race, color, creed, sex, sexual orientation, or level of ability. The District recognizes that equal opportunity education does not imply uniformity and that each student’s unique characteristics must be acknowledged. Instructional programs, methods, and materials will not imply, teach, or encourage any beliefs or practices reflecting bias or discrimination toward other individuals or groups and will not deny others their basic human rights.

The District has developed curriculum learner goals that are available through District and School Offices. These goals reflect the District’s ongoing strategic educational plan and will be publicized and made available to interested citizens. This statement will be reviewed annually and revised as deemed necessary.
