

Week of Nutritional Services Dec 16th - Weekly Newsletter 22nd

Issue 12

Standing orders shut down as of December 17th

This is a reminder that all current standing orders, that have been filled out since the beginning of the program, are officially **turned off** as of Thursday the 17th. If you wish to continue to use a standing order for weekly pick up, you will need to fill out the link below. The new standing order will cover you until Spring Break. At that point we will reset again for the rest of the year. Too many people are not picking up meals that originally set up standing orders, this will give us a chance to start over with those that really want to pick up meals without filling out the order form every week.

If you want to pick up meals during winter break you must fill out the special-order form, so we know you are coming.

Please help us by not just showing up without letting us know. There is a chance that you could be turned away if we do not have enough food, and you did not pre-order.

If you have special circumstances call us 324-2570 we will work with you.

In case you had not heard we have been approved for free meals to all children 1-18 until June 30th 2021. Our program will continue for the rest of the school year!

Pre-Order Distance learning Meals
