

Student Instruction and Services

As outlined in District Policy 2005, and except for students determined by the School District to be proficient using School District assessments, the adopted calendar has a minimum number of 720 aggregate instructional hours for students in kindergarten through third grade; 1,080 hours for students in fourth through eleventh grade and 1,050 hours for students in twelfth grade.

The School District may satisfy the aggregate number of hours through any combination of onsite, offsite, and online instruction. The District administration is directed to ensure that all students are offered access to the complete range of educational programs and services for the education program required by the accreditation standards adopted by the Montana Board of Public Education.

For the purposes of calculating ANB (Average Number Belonging) and aggregate hours, instruction may be synchronous and/or asynchronous. Asynchronous and synchronous learning may include but is not limited to the following types of instruction; directed, distributive, collaborative and/or experiential learning. The learning is directed or coordinated by the teacher of record for a given course and is done purposefully to facilitate the learning and mastery of defined essential standards for specific courses or classes. Calculation of ANB and “aggregate hours of instruction” within the meaning of that term in Montana law, the term “instruction” shall be construed as being synonymous with and in support of the broader goals of “learning” and full development of educational potential as set forth in Article X, section 1 of the Montana Constitution.

Staff shall calculate the number of hours students have received instruction as defined in this policy through a combined calculation of services received onsite at the school or services provided or accessed at offsite or online instructional settings including, but not limited to, any combination of physical instructional packets, virtual or electronic based course meetings and assignments, self-directed or parent-assisted learning opportunities, and other educational efforts undertaken by the staff and students that can be given for grade or credit. Staff shall report completed hours of instruction as defined in this policy to the supervising teacher, building principal, or district administrator for final calculation.

Offsite and Online Instructional Setting

The Board of Trustees authorizes offsite and online instruction of students in a manner that satisfies the aggregate number of instructional hours outlined in the School District’s adopted or revised calendar for the 2019-2020 school year. Offsite and online delivery methods shall include a complete range of educational services offered by the School District and shall comply with the requirements of applicable statutes. Students completing course work through an offsite or online instructional setting shall be treated in and have their hours of instruction calculated in the same manner as students attending an onsite institutional setting.

Students receiving offsite delivery of education services may be eligible for assistance with accessibility to offsite or remote learning opportunities in accordance with District Policy 1904.

Special Education and Accommodation of Disabilities or Diagnoses

Students shall receive services in accordance with the applicable Individualized Education Plan or Section 504 Plan based on methods and locations agreed upon and documented by the applicable team to meet the student's needs and goals. The supervising teacher or building administrator shall coordinate with parents and the special education staff or cooperative to ensure all applicable statutes are followed in accordance with U.S. Department of Education guidelines.

Student Attendance

The Board of Trustees authorizes the supervising teacher, building principal or district administration to set an attendance policy for students that takes into account the location of instructional services, the applicability of proficiency-based instruction, the student's grade level, and the health and safety of the student and their household. Students are expected to complete assigned work. If a student is not present for the instructional day, the student shall be permitted to complete all work assigned by the teacher if not present for instruction within a reasonable period of time determined by the teacher. Students shall not lose credit or incur a grade reduction for reasons related to attendance without good reason as determined by the Board of Trustees.

Student Safety and Counseling

Students shall have access to regular school counseling services whether their instruction is provided in an onsite, offsite or online setting. Staff shall promptly report any suspected student distress or concern to their supervisor for review and referral. Students receiving instruction in an offsite setting are governed by the staff obligation to report suspected child abuse or neglect.

Homeless Students and Students in Foster Care

This policy in no way limits or adjusts the School Districts obligations to homeless students or students in foster care. Applicable District policies serving these students or this population of students remain in full effect.

Student Discipline

This policy in no way limits or adjusts the School District's expectations for student conduct. All applicable district policies and handbook provisions governing student conduct remain in full effect.
